Transforming Walls. Creating Experiences.

Our Story

Wall Painting and Decoration began its journey on 28 July 2022 with a simple vision—to transform ordinary walls into attractive, meaningful and inspiring spaces. During our early journey, we successfully completed a range of regular painting, decorative and artistic projects while gaining valuable practical experience.

Following a temporary operational pause while our Founder pursued higher studies in China, the company has returned with a stronger management structure, improved systems and an expanded vision. Today, our head office operates from China while our professional management and field teams coordinate services in Bangladesh.

28 July 2022

Our Journey Began

The beginning of our mission to bring life, color and creativity to every wall.

2022–2023

Successful Residential, Commercial & Creative Projects

We completed numerous projects across homes, offices, restaurants, schools and commercial spaces, earning trust and valuable experience.

12 October 2023

Last Project Before Operational Pause

A brief pause in our operations as we prepared for a new chapter of growth.

2023–2026

Founder Pursued Higher Studies in China & Business Restructuring

A period of learning, growth and behind-the-scenes strengthening of our systems, processes and management structure.

2026

A Stronger, More Organized Wall Painting and Decoration Returns

With renewed vision, improved systems and a dedicated team, we are ready to create more beautiful spaces than ever.

Great Painting Starts Under the Paint

A perfect finish begins long before the first coat. Our professional process ensures strong adhesion, long-lasting beauty and a flawless result.

Painting over a damaged or damp surface without identifying the underlying problem can lead to premature paint failure.

Our team assesses the wall before recommending the appropriate solution.
